Self-Empowerment
Support

PASS is a mentoring program for Monroe County adolescents ages 13 to 17 that teaches life skills such as anger management, self-esteem building, job interviewing, decision making, goal setting, social skills, and self-motivation. The program provides an environment for youth to practice what they learn and use the new skills in creating a path towards lifelong goals.

Parents and youth commit to a series of several weekend workshops between July and December.

**Apply by
June 20th!**
