Defining a Disability

- Physical, mental, or emotional impairment which is expected to be of long-continued and indefinite duration, substantially impedes the person's ability to live independently, and is of such nature that such ability could be improved by more suitable housing conditions. Developmental Disability and HIV/AIDS have their own additional defining points

Documenting a Disability

- Client file must contain:
- Written verification by a professional who is licensed to diagnose and treat disability. Must include certification that the disabling condition is expected to be long continuing/of indefinite duration, and substantially impedes the individual's ability to live independently; or
- Written verification from Social Security Administration or receipt of a disability check (SSDI/S, VA); or
- Initial observation by intake staff with confirmation by professional no later than 45 days after client is accepted
- If client entered during a waiver period, the file must contain the waiver from HUD.

Documentation

Upon intake

Homeless Verification

Household Composition

After the client has been housed (or sooner)

Photo ID-Head of Household only

Copy of Social Security Card for each household member

Birth Certificate for each household member

Lease Information-name on lease matches Head of Household

Disability Verification (if entered during the HUD waiver period, must have a waiver in folder)

Case Manager requirements

- PSH—Per HUD regulations, the CM must provide case management; there is no requirement on the regularity of the service. The community standard is that contact with the client should be at least once a month or more, based on the client's necessity for supportive services.
- RRH—In strict adherence to HUD regulations, the case manager is required to meet with the client at least once per month as long as the client is enrolled in the RRH project. This commitment to regulatory compliance ensures the security and effectiveness of our RRH projects.

PREPARING FOR MONITORING.

As key participants in the CoC program, it's crucial that the recipients and sub-recipients are well-versed in the program's requirements, especially if any areas of improvement have been highlighted in previous monitoring reports.

The Monitoring team will review the following before the site visit:

- APR in SAGE for projects ending in 2025
 - ***This data comes from the PARTICIPANTS DATA THAT CASE MANAGERS IN YOUR PROJECT PUT INTO HMIS!***

PREPARING FOR MONITORING Continued:

- The following materials for reviewers will be required **a week before the site visit:**
- Current to date active rent roll or program roster
- List of clients who entered from Coordinated Entry
- List of clients who exited the program within the program year-ending in 2025
- List of active HMIS users for your program
- The following only needs to be sent or given to the team once (can be given before or during the site visit):
 - A copy of the program's policies that cover requested policies and procedures referenced in the monitoring checklist.
 - A written copy of finance policies and procedures, as well as a copy of a recent audit statement

PREPARING FOR MONITORING.

The following will be reviewed at the time of the site visit:

The file review process is a crucial part of our operations. We will review at least three total, or 10% of the caseload files, from the start of the program to the date of monitoring.

If items on the next slide are not successfully given to the monitoring team during the first site visit, it will result in a “No” for the monitoring question, “Was the Project prepared for the site visit?” This includes the clients’ files requested and timely SAGE Apr Submission.

FILE SELECTION AND SAMPLING

PEH Staff will email the project 24 hours before the site visit with a list of files we would like to review. Please ensure these files are ready for review during the site visit. (File selection will be made using a random selection)

Reviewers will consider the following factors when determining the specific files that will comprise the review sample:

- A. 10% of files, or a minimum of 3, are chosen randomly from participants enrolled or exited during the project year. If there are not enough eligible files from participants enrolled at least three months before the end of the project year, additional files will be requested from participants enrolled before the project year under review. To ensure random selection, each qualifying file is assigned a unique number (from 1 up to the total number of files). These numbers are then input into a random number picker app. The numbers selected by the app determine which files are chosen-the files corresponding to those selected numbers are the final selections. Files found deficient in the previous monitor are requested again the next year, unless exited prior to the previous year's monitor date.

FILE SELECTION AND SAMPLING Continued

B. The reviewers will consider adding more files to this selection to include a file or files from each staff person working in the respective program area being monitored. *Expand the sample, if necessary, to include additional files with the same characteristics if indicated by the severity or nature of any problem(s) noted during the initial selection's review such as the same problem category, the same staff person, the same activities, or other characteristics. This expanded sampling aids in determining whether issues are isolated events or represent a systemic concern.*

C. Reviewers will also review subrecipient files.

Flowchart of HUD's Definition of Chronic Homelessness

Instructions: Begin at the "START HERE" box and then proceed through the flowchart based on the yes or no questions presented. For more information consult 24CFR Parts 91 & 575 and the HUD Exchange (<https://www.hudexchange.info/>).

Remember:
- Occasions are separated by a break of at least seven nights
- Stays in institution of fewer than 90 days do not constitute a break

Documentation Standards for Chronic Homelessness

Instructions: Based on your navigation of the flowchart on the previous page, locate the appropriate numbered situation on this page and follow the documentation standards noted. This tool summarizes the criteria for the new Chronically Homeless Definition. To review the exact language, please refer to 24 CFR Parts 91 & 578 and the HUD Exchange (<https://www.hudexchange.info/homelessness-assistance/resources-for-chronic-homelessness/>)

Proposed Bed and Unit Inventory

The number of beds and units shown here come from the grant application as it was submitted in e-snaps. This information is not able to be edited by the Recipient or the CPD Representative. These represent the number of beds/units funded under the award unless amended post-award.

Total Number of Year Round Beds/Units from Application

Total Units	27
Total Beds	50
Total Dedicated CH Beds	0
Total Non-Dedicated CH Beds	50

Units from APR

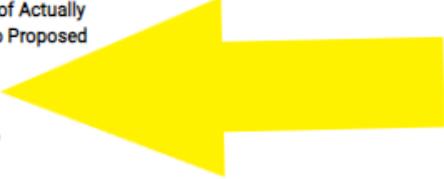

PIT Actual Bed and Unit Utilization

The numbers here are reported by the recipient and are to reflect the number of beds and units that were **occupied and available for occupancy** on the last Wednesday of the appropriate month. The chart is comparing the number of beds and units the recipient proposed to the number the recipient had actually occupied and/or were available.

- Occupied means a unit which has persons residing within the unit. [Count each unit and bed occupied.]
- Available for occupancy means a unit which is "readily available" to be occupied. That is one where 1) in a site-based project the unit included in the grant is vacant AND 2) in a scattered-site project readily available includes all leasing subsidies which are available but which a client has not rented with yet and any units which will be rented with funds available (i.e. those above the number of units awarded in the grant based on funding availability.)

The application number and the occupancy number may legitimately differ for reasons. For example - the project may show fewer beds and units available because the project had a slow start-up or a unit was being rehabilitated, or the project may show more beds and units available by correctly reporting availability based on the amount of leasing funds available on the last Wednesday of any given quarter (scattered-site housing only).

**Units from the
Point in Time
Count**

Point-in-Time Utilization on the Last Wednesday (Quarterly)	As Proposed in the Application	Occupied AND Available for Occupancy As Completed in the APR by the Recipient				Average % of Actually Available to Proposed
		January	April	July	October	
Units	27	24	23	25	26	90.74%
Beds	50	57	50	58	61	113.00%

Explanation, as necessary

If the number of beds and units proposed is different from the number actually available on the last Wednesday of each month please explain why:

Being a leasing project, each time a tenant vacates a property the units need to be re-released to new tenants. The program is actively working on developing ways to reduce

*Please note 10% of files, or a minimum of 4, are chosen randomly from participants enrolled or exited during the project year. If there are not enough eligible files from participants enrolled at least three months before the end of the project year, additional files will be requested from participants enrolled before the project year under review. To ensure random selection, each qualifying file is assigned a unique number (from 1 up to the total number of files). These numbers are then input into a random number picker app. The numbers selected by the app determine which files are chosen-the files corresponding to those selected numbers are the final selections. Files found deficient in the previous monitor are requested again the next year, unless exited prior to the previous year's monitor date.

What will happen next?

- Site visits are being scheduled for projects that ended 90 days+ ago.
- Site visits will be scheduled 90 days after your Project has ended
- You will be given three time slot options the week of the visit.
 - The other three projects might get the same available time slots
 - Please pick the time that works best for you and your staff (first come, first served)
- Anywhere from 2 to 4 monitors will show up to the visit, this is including Jennifer and Carolyn (once per Program)
- **Recipients are responsible for contacting sub-recipients about the upcoming site visit.**
- A week before, we will request the following (please have it back to us within 24 hours of request)
 - Current to date active rent roll or program roster
 - List of clients who entered from Coordinated Entry
 - List of clients who exited the program within the program year-end in 2024
 - Proof of income for participants over income for non-cash benefits
- 24 hours before we will send out a list of files the team would like to review
