15	County assistance is woefully inadequate to meet the needs of the homeless population to secure permanent housing	8/22/2025 7:55 PM
16	2 things, from each side of the problem: Tenant accountability needs to be not just taught, but reinforced by all providers so that tenants learn that YES they need to pay their rent, YES they need to take care of the unit, and YES they matter, and they have a say in what happens to them. The 2nd thing is helping landlords understand that they can reach out to providers as well as tenants. The housing provider should be another tool for the landlord to make sure that their housing units are secure and rent is paid.	8/22/2025 6:15 PM

30	The biggest impact on improving housing stability would come from increasing the availability of affordable, safe housing paired with supportive services. Many individuals don't just need housing, but also wraparound supports such as case management, mental health resources, employment assistance, and access to healthcare.
