

Join Us on the Road to Better Health for Every Child

The Golisano Children's Hospital (GCH) Pediatric Mobile Clinic is on the road to improve access to healthcare for children and teens in Rochester, especially those in underserved communities and youth experiencing homelessness.

To make sure our services truly reflect the needs of families, we are creating a **Community Advisory Board**. We're looking for parents, caregivers, young people, and community members to share their perspectives and help shape the future of this vital program.

Why Join?

Your voice and lived experience will:

- Guide how the Mobile Clinic provides care (including primary care, immunizations, mental and behavioral health screenings)
- Help connect children and families to medical homes and community resources
- Shape outreach and engagement strategies so more youth get the care they need

What to Expect

Meetings: Once a month (alternating in-person at community sites and virtual via Zoom)

Time Commitment: About 1–2 hours per meeting

Compensation: **\$40/hour** in recognition of your valuable time and expertise

Make an Impact

By sharing your experiences and ideas, you can help build a more inclusive, responsive, and compassionate healthcare system for Rochester's kids and families.
