**1150 Buffalo Rd., Rochester, NY 14624**

*(See the accompanying map for reference)*

**RSVP by June 2, 2022** (Registration Link below)

### EVENT DETAILS

During the last two years, many leaders have deeply felt the uncertainty and toxic stress that accompanied the pandemic. Leaders have responded to financial challenges, policy changes to accommodate the impacts of COVID-19, a need to prepare for the future even while it remains unknown, virtual communication, and a recognition that role-modeling and prioritizing self-care is important for the entire team.

On Wednesday, June 8<sup>th</sup>, 2022, made possible by the **Greater Rochester Health Foundation** COVID support activities, we are offering an in-person 2-hour circle time during which the experiences of the past 2 years can be shared. We will bring our combined expertise to discover how safety and trust can be restored and/or maintained within our team. The conversation will be facilitated by Cheryl Martin, Noora Abdulkerim, and Siena Tugendrajch.

We will be able to safely accommodate the first 20 guests who register, so it is recommended that you register early! Use the registration link or QR Code below.
