

New York State Alliance of Recovery Residences (NYSARR)
and Opioid Response Network (ORN) presents:

OVERDOSE GRIEF, LOSS AND HEALING

with **Diana Padilla**

Opioid overdoses have increased 28% between April 2020-2021 and 100,000 people are lost to overdose each year.

How do we respond to the emotional and psychological toll of resident overdose loss on staff & peers?

What are the best ways to support both staff and residents?

This interactive session will review:

- The main issues that arise when residents in recovery environments don't survive a recurrence.
- Behavioral, physical, and psychological responses to grief, self-care and coping strategies
- Post-vention activities that can help support those staff and residents impacted by overdose loss.

Diana Padilla is a Research Project Manager & Technical Assistance Specialist at the Northeast & Caribbean Addiction Transfer Technology Center Network (NeC ATTC), NYS Psychiatric Institute & Columbia University Medical Center.

She has worked in public health for over 23 years, & provides instruction on culturally conducive & trauma informed best practices.

Wed. April 20, 2022 | 7-8:15 pm | Zoom
